

Dear Troop 614, Friends, and Family,

My Eagle Scout project was approved! I'm finally on my path to Eagle! My chosen project is the brush clearing/ fence repair of a property line located at O'Leno State Park. I have listed (tentative) dates to work on the property. I'll be calling everyone within the next couple of days to confirm dates, times and follow-up with details. **I just felt it was really important to get the word out ASAP.**

To make this project a reality I need a lot of help and am requesting your support.

I attached a list of dates and times along with a list of tools, equipment, and supplies needed for the project.

Any item(s) that can be borrowed, or donated towards the project will be a big help.

Any able bodied person who can come out to help with said borrowed or donated items will be greatly welcome and appreciated☺

Monetary donations are also welcome; I need to confirm to whom funds should be submitted, etc. and will provide that information this week as well.

To make communication easier I created a gmail account specifically for this project:
maxpath2eagle2010@gmail.com

I also made a Facebook page so that everyone can be part of my experience. I hope for the younger Scouts it will be a fun way for them to see the path to Eagle as more "real" and will motivate and encourage them too. Just type in "Maxs Path To Eagle" it should take you to the page.

My phone numbers are: Home 352 463-2959 Cell 352 949-1403

Last but not least I want to thank my Eagle Counselor, mentor, advisor, and overall adopted Scout dad Mr. C. It took me long enough, but here we go!

Sincerely

Maximilian Jimenez

Dates: FROM 8:00 AM – 2:00 PM

7/10/2010

7/17/2010

8/7/2010

8/21/2010
